Art with Heart

*It's about **Love**. It's about **Community**. It's about **Healing**.*

Award-winning photographer Bonnie Fournier has embarked on an inspiring and thought-provoking journey around the world to collect photographs of thousands of ordinary people demonstrating their affection for someone they love with a poignantly simple gesture — a smooch on the cheek.

Sparked by a chance photograph, The Smooch! Project is a creative effort destined to someday reach around the world. The primary goal behind this remarkable project is the creation of a 10,000-image online archive designed to visually demonstrate that ALL humans, regardless of social, racial, economic or political challenges share a joyful willingness to welcome love and affection into their lives.

As she travels to collect images from all over the world, the photographer offers interested communities
